Walk Safety Plan

FITDOG TRAINING ACADEMY

Safety and Walk Management

Safety is part of training.

Safe management gives the dog room to learn.

TRAINER NOTE

Stay below threshold. Distance and safety come before performance.

Best reward

Distance first

Your dog learns when they can notice and still think.

Soft leash

Create space early. Tension raises arousal.

Mark calm

Reward looking, sniffing, and disengaging.

1 Training goal

YOUR GOAL THIS WEEK

Safety is part of training. It is not separate from it.

2 Lesson focus checklist

- ☐ Harness fit
- ☐ Backup leash connection
- ☐ Basket muzzle training when needed
- ☐ Avoiding dog parks
- ☐ Choosing quieter routes
- ☐ Using cars and corners as visual barriers
- ☐ No surprise greetings

Supplies needed

- Front-clip harness
- Muzzle (if recommended)

PRACTICE · TRACK

3 Step-by-step practice plan

Check harness fit — two fingers under straps, no rubbing at armpits.

Attach a backup clip from harness to collar before every walk.

Walk your route and mark three safe exit points (corners, cars, driveways).

Identify one quieter alternate route for high-trigger days.

Practice turning away from a trigger before you are within 30 feet.

4 Practice tracker

Date	Route	Safety gear	Incident	Plan change
Day 1	Neighborhood loop	Harness + backup	None	Marked exits

5 Common mistakes to avoid

AVOID THESE

- Getting too close to triggers too fast.
- Tightening the leash at triggers.
- Practicing only on hard walks.

If this happens, try this

IF THIS HAPPENS, TRY THIS

Work on exercises outside triggers.
 Back up before you make too close.
 Still stuck? Contact Fitdog if safety is a concern.
