Premium practice worksheet

EVERY DAY OBEDIENCE - LESSON 07

Reward the walking picture you want.

Use this worksheet to build better leash habits by reinforcing position, check-ins, and movement on a loose line.

TRAINER NOTE

1 What success looks like

By the end of this lesson, the dog can walk short stretches on a loose leash in a low-distraction area while staying connected to the handler.

2 Practice plan

1

Reward position

Mark and feed when your dog is in the walking zone you want.

2

Pay check-ins

Reward eye contact or choosing to reorient back to you.

3

Use movement

Stop, slow down, or turn before leash tension becomes the pattern.

4

Practice small sections

Train short pieces of good walking instead of demanding a perfect whole walk.

Loose Leash Walking

6 Common mistakes and quick fixes

Common mistakes

- Training on a very hard route first.
- Continuing forward while the leash is tight.
- Feeding in a way that pulls the dog out of position.
- Walking too long for the dog's current skill.

If this happens, try this

- If your dog surges ahead, change direction before tension builds.
- If sniffing matters, build planned sniff breaks into the walk.
- If food is ignored, the environment may be too hard.

7 Ready to progress?

- ☐ I know what leash position I am reinforcing.
- ☐ I have an easier route for practice.
- ☐ I reward check-ins and leash slack.
- ☐ I can shorten the walk when it gets too hard.

HOMEWORK
