Enrichment Starter Plan

## FITDOG TRAINING ACADEMY

### Enrichment 101

## Fulfillment beats exhaustion.

Enrichment is not a bonus. It is part of a healthy behavior plan.

#### TRAINER NOTE

## PRACTICE · TRACK

**3 Step-by-step practice plan**

Pick one food-based enrichment: scatter feed, puzzle, or stuffed Kong.

Set it up in a quiet spot. Let your dog work for 5–10 minutes without interruption.

Add one sniff game: hide treats in a towel or cardboard box.

Log which activity kept your dog engaged longest.

Schedule one enrichment session before a usual chaos time (before guests, before leaving).

**4 Practice tracker**

| Date  | Activity     | Duration | Engagement 1–5 | Notes                 |
|-------|--------------|----------|----------------|-----------------------|
| Day 1 | Scatter feed | 8 min    | 5              | Used breakfast kibble |

## REVIEW · REFLECT

**5 Common mistakes to avoid**

## AVOID THESE

- Using enrichment only when the dog is already destructive.
- Puzzles that are too hard = frustration, not fulfillment.

**If this happens, try this**

## IF THIS HAPPENS, TRY THIS

Doesn't make interest faster or use higher-value food.  
Try a different enrichment item.

## WELFARE / SAFETY

Supervise new enrichment setups. Remove items your dog could swallow or destroy unsafely.
